

Project Initialization and Planning Phase

Date: 10 February 2026

Student Name: Mansi Sudhakar Patil

Project Title: Diabetic Retinopathy Classification Web Application

Maximum Marks: 3 Marks

Problem Statements

(Diabetic Retinopathy Classification Web Application)

PS No.	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A patient with diabetes	Detect eye disease early	I don't know symptoms	Early DR has no visible signs	Worried and anxious
PS-2	A doctor	Diagnose DR quickly	Manual checking takes time	Many patients need screening	Overloaded and stressed
PS-3	A hospital admin	Manage patient screening	Limited specialists	High patient volume	Concerned about efficiency
PS-4	A rural patient	Access eye diagnosis	No nearby eye specialist	Medical facilities are limited	Helpless and dependent
PS-5	A researcher	Build an accurate DR model	Limited labeled data	Medical datasets are complex	Challenged technically
PS-6	A healthcare organization	Improve screening accuracy	Human error possible	Manual analysis varies	Concerned about reliability
PS-7	A government health body	Reduce blindness cases	Late detection common	Awareness is low	Responsible and concerned
